

SELECTING COMPANIES FOR INTERVIEWS

Applicants for the VI-A Internship Program must rank order the companies with whom they would like to have interviews. Individual Interview Schedules will be made available at the 'VI-A Company Open House'. Each applicant must pick up his/her schedule at that Open House, **Monday evening, October 26, 2009**.

A number of aids are available to help VI-A applicants in selecting companies. You can visit the VI-A Office (38-409H) for this information or any further assistance.

Aids Available for Selecting and Ranking VI-A Companies:

- Pamphlet describing the VI-A Master of Engineering Thesis Program.
- 'VI-A Student Handbook - 2009' - write-ups by each company.
- Company literature, as available.
- VI-A Website: <http://via.mit.edu>
- Company Open House, October 26th, Grier Room (34-401); informal from 8:30-10PM

Hints on Selecting Companies:

- Avail yourselves of the above-listed material
- Talk with VI-A students associated with the companies which interest you.
- Talk with any of the Faculty Advisors and/or the staff in the VI-A Office (38-409H). Best to make an appointment to see Faculty.
- Attend the **VI-A Company Open House, Monday evening, October 26, 2009**.
Talk with company representatives. Many students find they become interested in a company at the Company Open House and can sign up for an interview there if there is an open slot. Conversely, you may wish to drop an interview which no longer interests you, thus providing a slot for someone else who didn't get an interview.
(NOTE: All applicants must attend this Open House and pick up their Individual Interview Schedules.)

PARTICIPATING COMPANIES
Fall Recruitment 2009
